The Head 'n Ron Collider is this year's spooky project!
- > RECORD AND EDIT PODCASTS **50**
Use your Pi to make and publish web radio shows
- > SIMULATE CIRCUITS **52**
Use Xyce to simulate your circuit ideas
- > GET STARTED WITH NODE-RED **54**
The visual programming language for IoT
- > HYDROPONICS WITH PI **58**
Monitor your vertical gardens with this special project

IN THE NEWS

RASPBIAN STRETCH

Raspbian is the Foundation's official supported operating system. You can install it with NOOBS or download the image below and follow our installation guide.

Raspbian comes pre-installed with plenty of software for education, programming and general use. It has Python, Scratch, Sonic Pi, Java, Mathematica and more.

The Raspbian with Desktop image contained in the ZIP archive is over 4GB in size, which means that these archives use features which are not supported by older unzip tools on some platforms. If you find that the download appears to be corrupt or the file is not unzipping correctly, please try using [7Zip](#) (Windows) or [The Unarchiver](#) (Macintosh). Both are free of charge and have been tested to unzip the image correctly.

RASPBIAN STRETCH WITH DESKTOP	RASPBIAN STRETCH LITE
Image with desktop based on Debian Stretch	Minimal image based on Debian Stretch
Version: Raspbian 2017	Version: Raspbian 2017
Release date: 2017-09-07	Release date: 2017-09-07
Kernel version: 4.9	Kernel version: 4.9
